

Art has the power to move hearts and change minds. To transform.

Launched in 2021, **Community Arts Network** is a global platform that enables, engages, and empowers individuals, organisations, and communities using the arts for social impact. We are a growing community of changemakers with diverse focus areas across over 80 countries.

## What We Do: Enabling Action, Advocating for Change

### Enablement

CAN supports individuals and organisations by connecting them with resources, tools, knowledge, and each other, empowering them to work more effectively and sustainably.

### Advocacy

CAN advocates for a world where the arts are recognised as essential to social transformation — not a luxury.

Through active collaboration and collective action, we work towards a world where the arts are not side-lined but are well resourced and respected as agents of change.

### Be a CAN Member

Becoming a member is also an act of advocacy. Your registration adds to a global collective championing the arts to be recognised as essential to social transformation.

### How to Join (It's Free and Easy!)

If you apply the arts as a vehicle for social change, [REGISTER HERE](#)

Once you're registered, you'll appear on the global [Network Map and Matchmaker](#). To help amplify your work, upload:

- Powerful imagery of your work and logo
- A rich summary illustrating your relationship to arts for social impact
- Your social media and work links

As a member with a strong profile, you could be featured in our digital channels and newsletter, introducing your work to a new, global audience.

## 1000 MEMBERS AND GROWING

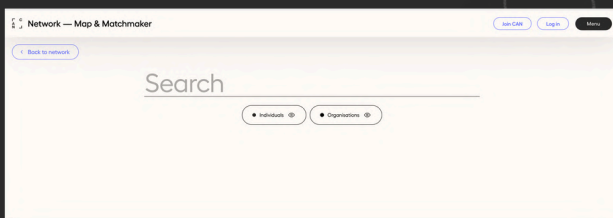

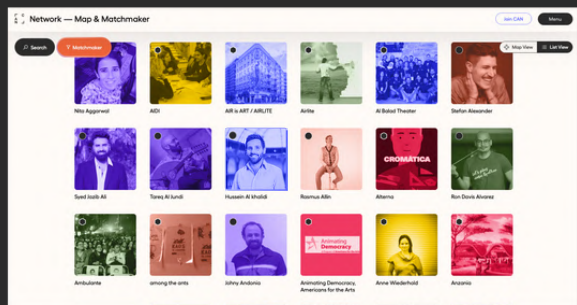

### The Network Map

A live, growing map of artists, organisations, and changemakers across the world who use community arts/arts to create social impact. Being included in this map enables others to more easily identify you, learn about your work and connect with you for collaboration. It's one of the simplest ways to become visible and discoverable in a global, like-minded community.

### The Matchmaker & Search Tool

Our free **Matchmaker** helps you connect with artists, activists, funders, and organisations intentionally and efficiently. Looking for collaborators in a specific region or practice? Use our upgraded **Search Tool** to find exactly who you need. These tools make it easy to explore synergies, build partnerships, and spark new ideas across geographies and disciplines.
