### Professional rules

Association Act 2002 (Vereinsgesetz 2002)

### Purpose of the association

The association, whose activity is not aimed at profit, aims to realize the full potential of arts in services of more just and more human society. The aim is to connect different Community Arts initiatives, make them visible and support them in their advocacy efforts by bringing the arts to powerful conferences, gatherings etc., where decision makers/influencers are present.

### **Underlying concept of the media**

The underlying concept of this website is to enable, connect and empower individuals, organizations and communities through arts and unlikely alliances to generate meaningful change and shape a more humane future together. The website will be a knowledge hub (find the right and useful information on Arts), a collaboration hub (how to create opportunities amongst members of the network, what we sometime call the "tinder of the Arts") and an impact webpage (evidence of impact, good practices, showcase of projects).
